Bryanprz00@gmail.com

South Florida
Github.com/Bryanprz

Technical Skills

- Programming: Ruby, Rails, Sinatra, HTML, CSS, Sass, JavaScript, jQuery, Twitter Bootstrap, Paperclip
- Databases: MySql, SequelPro, Postgres
- Tools: Sublime Text, Terminal, Amazon Web Services, Google Analytics

Related Experience

05/2014 - 07/2014, **Wyncode Coding School**: *Full-Stack Web Development Student, Miami, FL*

- Coursework included Ruby and Ruby-on-Rails concepts for creating full-stack web apps, including front-end technologies HTML, CSS, Sass, Javascript, and jQuery. Server-side concepts include database theory, MySql, Postgres, and Heroku.
- Software Development process included Git, GitHub, Agile Project Management, and Lean Product Management. Practiced daily stand-ups and weekly retrospective meetings to track velocity.
- Built three full-stack web apps within two months. Final project was *GoodMeasure*, an online-learning platform app. Portfolio available at bryanprz.com. Github profile at github.com/Bryanprz.

08/2012 - 03/2014, **Web Phenoms**: *Co-founder, Miami, FL*

- Co-founded Web Phenoms, an inbound marketing agency. Contracted for 8 client companies to increase web traffic up to 10-fold.
- Self-taught HTML and CSS to update client websites.
- Managed outsourced development resources.
- Hired team members. Created business systems, including Standard Operating Procedure documents.
- Used HubSpot training to build integrations to capture user information and deliver customized content.

11/2013 - Present, **HubSpot Academy**: *Student*

- Student at Hubspot Academy, an online training program for HubSpot, the #1 Marketing Software Platform.
- Coursework includes user-experience best-practices and building automated workflows to scale campaigns.
- Learned inbound marketing best practices. Tracked analytics to draw insights and optimize user-experience.

Education

2007 - 2011, **University of Central Florida**, *Orlando, FL*

- BA in Economics, minor in Mathematics. Coursework included quantitative analysis, statistical programming, and game theory. Senior research paper on using regression models to analyze social behavior.

Additional Information

- **South Florida Tech Community:** Active member at various South Florida tech meet-ups including Code For Miami, WordPress Users Group, and Refresh Miami events.
- **Side Projects:** Currently working with the *ReliefWeb* API on a global-crisis and disaster app. Current progress available on GitHub (github.com/Bryanprz/reliefweb).
